

Trauma Transformation Series – Part 1

Healing Hearts and Building Resilience: Looking at Challenging Behaviors in the Classroom Through a Trauma-Informed Lens – The Childcare/Preschool Edition

2-3 hour training

New 2018 Introductory Rate: \$600
(up to 50 attendees)

Testimonials:

- I will take all the information I've learned in this training and bring in to my classroom. Also, not asking "why?" but "what happened?"
- I will be able to better work with children who may have had trauma in their lives -- knowing there is some good I can do to help them.
- The most valuable part was ACES awareness – this allowed me to identify and understand my own behaviors, where they derive from.
